

Product: TEMP-COAT 101®

Unit: 5 gallon pail
Shelf Life: 1 year

Uses: Thermal Insulation Coating capable of insulating surfaces ranging -80°F to 350°F.

**Personnel Protection • Energy Retention • Asset Protection
 Steam Pipes • Boilers • Storage Tanks • Ducting • Process Equipment**

Benefits: Curbs Corrosion Under Insulation (CUI) by adhering to the surface it insulates • Ability to insulate with relatively thin films • Does not require jacketing • Perfect for complex geometries • Easily repaired • Ease of inspection • 10 Year Product Warranty

Properties:

*Percent Solids by Volume: (+/-83%)
 VOC Cont.: 0.009 EPA Meth. 24 weight fraction
 Wet Weight: 5.25 lbs/gal
 Shipping Weight per 5 gallon pail: 28.5 lbs*

*Dry Weight: 0.8oz/ft² @ 20 mils
 Theoretical Coverage: 66.6 ft²@ 20 mils
 Thermal Value: K(eq_v)=0.23(Btu-in)/(hr·ft²·°F)
 Application: Ambient of 45°F and rising*
